

# The Consultants

## - Big Beat Entertainment

**An amazing 6-piece live band specialising in cover songs from the 50's to the present day.**

Originally formed back in 2002 with 5 members performing over a 12 year period and became one of the leading acts on the circuit. After a 3 year break they returned even better than before. Now consisting of 6 members they have a fantastic mix of musicians and vocalists.

Covering all the old favourites from Ray Charles and The Beatles to Bruno Mars to name a few, you can rest assured if you book The Consultants for your function, the dance floor will be full all evening.

Whether your event is a small family party or a large concert, The Consultants can cater for your event. They also offer music before, between sets, and after, so there is no need for a DJ.

### Sample Set List
